SKILLS

HTML | CSS | Tailwind CSS | JavaScript | React JS | Unix / Linux | Git | Azure

PROFESSIONAL EXPERIENCE

Software Developer | AMDOCS   November 2021 - January 2024

ETLOPS Migration to Azure and Zebra Apps :

- Developed and performed unit testing of shell scripts for seamless migration to Azure Cloud.
- Ensured compliance with cloud standards throughout the migration process.
- Performed ad-hoc maintenance tasks and contributed to ongoing support and optimization efforts for four existing applications, enhancing performance and reliability

Centralized Offer Management System (C3) :

- Developed user interfaces for internal automations to streamline operations and improve efficiency.
- Addressed Astra Vulnerabilities for two applications, conducting manual golden image upgrades to uphold system security, integrity, and compatibility with evolving technologies.
- Implemented cost reduction optimizations in alignment with cloud team recommendations, resulting in reduced overall spending on cloud resources.

PERSONAL PROJECTS

Parcel Delights | Tailwind CSS, ReactJS, Parcel.js
- Developed a dynamic restaurant directory application leveraging Swiggy API integration for restaurant and menu data retrieval, implemented robust search functionality, enhanced user experience with Shimmer UI effects, and optimized cart management using Tailwind CSS and React Redux.
